THE MARKETING PROBLEM

Torrance county has produced a good crop, and now the time approaches for turning it into money, which is by no means the least difficult part of the operation.

Take potatoes for example. We have a good crop, but so has other parts of the country, and potatoes are going down. It would seem that potatoes that are to be marketed this fall should be marketed as early as possible, both because the price is likely to decline to the end of the shipping season, and the danger of freezing in late shipments. Of course those who intend to hold their crop over need not worry about these things—at least not at present. Of course all potato raisers understand the advantage of sorting.

Those who handle beans tell us that it is very important that the old and new crops should not be mixed.

We are also told that more favorable freight rates are now in effect than formerly. Producers might find it to their advantage to inform themselves as to these rates.

There is some talk of trying to get one person to handle all the shipments of produce from this point. This looks like a good idea.

M'INTOSH ITEMS

Special Correspondence.

Last Wednesday evening some Mexicans came to the mill and on their way back began helping themselves to windows and other things from the houses along the road. They were captured about 9 o'clock that night as they were going in with their load. They were taken before Justice Woodall. The women laid it onto the man, who was fined \$20 and costs, which amounted to \$9. That was for the windows only. The next day Geo. Torrance, W. W. Wagner, J. A. Britton and Isaiah Gutierrez, Deputy Sheriff of Chitili, searched their house in Chitili and found a great many things including mattresses, hand saws, planes, hammers, and dishes. W. W. Wagner found his daughters picture, also a good many of his son's dishes and a grain sack with his name on it. Anyone having lost anything might do well to call on the above men and find out what they found in regard to their belongings.

These people were caught in the act and with the goods on them, and if there is nothing more than a fine, where is our protection? Is there any justice in this, especially where the parties were seen in the act and caught with the goods. The public ought to rise up and see that the persons guilty of this are sent to Santa Fe and

put behind the bars. It would seem that the F. B. A. of Moriarty could do a good work by taking hold of this matter. If they would add anti thieving to the things they are working for they would certainly do a good service. There is no use trying to get more people to come here if we can not protect the property of those already here.

DIED

G. B. Bone died Wednesday morning and was buried Tuesday. He made a brave and determined fight for life after the operation but his condition was such that he had to succumb. The funeral sermon was preached by Rev. Huhns in the Methodist church and was largely attended. There were many beautiful floral tributes.

The I. O. O. F. and Rebekah lodges attended the funeral in a body and had charge of the services at the grave.

Mr. Bone was an honorable, industrious young man, and had made a host of friends here who will sincerely mourn his untimely death.

RE-RECORDING OF BRANDS

Important Notice to Cattle Men and Stock Owners.

In consequence of the great number of brands now on record in the office of The Cattle Sanitary Board, not now in actual use, the State Legislature has passed a law requiring all owners of recorded brands to re-record their brands within a period of six months, commencing on Sept. 10, 1912. A failure upon the part of each holder of a recorded brand to re-record his brand in the time required by law, forfeits all right of further use. In a short time circular letters together with proper blanks for sending in renewals to the office of the Cattle Sanitary Board will be sent out to each holder of brands new of record. To facilitate this work as much as possible and to avoid the lapsing of brands, it is earnestly requested that all parties now having recorded brands, upon receipt of proper blanks from this office, send in their renewals with the least possible delay. Cattle Sanitary Board of New Mexico.
